

THE LAND WHERE YOU LIVE

1. *When everything has become quiet
There's only fog no sign of riot
The lights fade out in the evening
Slowly a day comes to an end*
- Rf. 1. *The land where you live/ Is like prison cell
The land where you live/ Is hectic just as hell
The land where you live/ Should be the place for you
to search for hope*
3. *If you work hard they treat you like a fool
If you're giving, they use you like a tool
In the line they stand in front of you
To mention it is not the wisest thing*
- Rf. 3. *The land where you live/ Lacks a very modest
The land where you live/ Is filled with jealousy
The land where you live/ Is filled with envy almost
everywhere*
- I. *The balloon flies up higher and higher / And horizon's growing wide
Looking down from the blue sky / Everything seems just allright.*
- II. *What you see is not so very bad at all / What you see is not so very bad at all
All you have to know is where to look at it from*
- III. *But if I see it differently, Could it be that I am wrong*
- IV. *If you don't like it, stay away from here / We do not need such a voice!*
2. *The helpless tree was broken cruelly
The bicycle was ruined rudely
The car was scratched with a huge nail
The statue was spoiled with black paint.*
- Rf. 2. *The land where you live/ Is filled with apathy
The land where you live/ Is filled with cruelty
The land where you live/ Is filled with selfishness,
what can you do?*
4. *When you're the first, they cling to you
When something's wrong they laugh at you
If sometimes you play in bed form
They make you feel the worst that you can*
- Rf. 4. *Where can we find/ A little happiness?
And where can we find/ Goodwill and sweet caress?
And peace of the mind/ These are the things needed
by everyone*
- Rf. 1. *The land where you live/ Is like prison cell
The land where you live/ Is hectic just as hell
The land where you live/ Should be the place for you to
search for hope*
- Rf. 1. *The land where you live/ Can give you shelter, and
The air that you breathe/ Is clean forever
The land where you live/ Should be the place for you
to search for hope*
- Rf. 2. *The land where you live/ Is filled with apathy
The land where you live/ Is filled with cruelty
The land where you live/ Is filled with selfishness,
what can you do?*
- Rf. 2. *The land where you live/ Is full of novelties
Your land is the home/ Of the young and strong
The land where you live/ Has all the things needed
by everyone*
- Rf. 3. *What can you see?/ Communities fall apart
And what can you see/ People on drugs and drunk
So help if you can/ To get rid of what makes
the world a mess!*
- Rf. 3. *What can you see?/ Communities stay together
What can you see?/ People in health forever
Help if you can/ To keep the world a nice and
friendly place!*
